

Calling all puppy owners!

Is Brutus pulling you all over the neighborhood? Do Lily's actions embarrass you when company comes to the house? Would you like to better understand your pet's behavior? If the answer is YES then Puppy Life Skills classes may be the perfect training for you and your pet!

- **Who?** Any puppies between the ages of 7 weeks to 6 months in need of basic training. All puppies must be current on flea prevention and age appropriate vaccines, including DA₂PP, Bordetella, & Rabies.
- **What?**
 - **Socialization** with other puppies and people!
 - **Basic Manners:** Sit | down | stay | come | go to your mat | leave it | loose-leash walking
 - **Prevention Topics:** House-training | crate training | anti-jumping | bite inhibition | handling | food guarding
- **When?** Tues & Thurs at 7:00 PM. Each session is one hour per week for six weeks.
- **Where?** At Animal Hospital of Shawnee Hills, 9540 Dublin Road, Powell, OH 43065. Classes are held in the main entrance lobby after regular business hours.
- **Why?**
 - By teaching your puppy that obedience and other desirable behaviors earn him things he likes (treats, toys, petting & praise), you create a dog whose primary motivation is based on earning a reward as opposed to avoiding a punishment. Your relationship will be built on trust, rather than fear.
